

**Backing up your device:**

It is a good idea to back up any and all devices in your household whether it is to a computer, external hard drive, or iCloud. There are always situations that we cannot or did not plan for, and having a back up helps!

This link from Apple <https://support.apple.com/en-us/HT203977> gives step by step information on how to back up an Apple device to a computer using iTunes or to an iCloud account.
